Global Power Supply is a distributor specializing in uninterruptible power supply (UPS) systems. They offer both standalone and trailer-mounted UPS systems, catering to a variety of sectors including data centers and electronic applications. The company also provides used equipment.

What is an ups & how does it work?

An UPS is a device that supplies power to connected devices for a certain period of time in the event of a power failure due to a power failure. It has a built-in battery and supplies power to servers, PC electronic equipment, network equipment, etc. in the event of power failure or power supply trouble, for example.
