Portable power bank requirements

Overview

When do portable power banks come into effect?

Effective June 28th 2025, new enforcement measures concerning portable power banks come into effect. Ensuring your power bank complies is paramount for a seamless passage through security and a comfortable flight. Before you depart, take a moment to inspect your devices – a small step that guarantees peace of mind and uninterrupted travel plans.

Can you bring a power bank without a 3C certification?

You'll want to double-check its label. Recently, to ensure aviation safety, the Civil Aviation Administration of China (CAAC) issued an urgent notice: starting from June 28, passengers are prohibited from bringing power banks without a 3C certification mark, with unclear 3C labeling, or from recalled models or batches on domestic flights.

Can you carry power banks without a 3C label?

To ensure aviation operation safety, the Civil Aviation Administration of China has issued an urgent notice prohibiting passengers from carrying power banks without a 3C label, with unclear 3C labeling, or belonging to recalled models or batches on domestic flights effective today (June 28).
