Power battery storage in Tampere Finland

Overview

Is paistinkulma energy storage the largest battery energy storage system in Finland?

Paistinkulma Energy Storage is set to become one of the largest battery energy storage systems (BESS) operating in Finland's frequency reserve market. Taaleri Energia, a Finnish-based wind and solar energy developer and fund manager, has launched its first BESS investment in Lempäälä, Finland.

Who is deploying a 30mw/36mwh battery energy storage system in Finland?

Taaleri Energia and Merus Power have partnered to deploy a 30MW/36MWh battery energy storage system in Finland, one of the country's largest.

Does Finland have a battery storage market?

The battery storage market in Finland has been relatively quiet in the past year compared to neighbouring Sweden. A few large-scale projects have been added to wind farms, like ones for power generators Ilmatar Energy and EPV Energy reported on by Energy-Storage.news.

When will a battery storage system be built in Lempäälä?

The two will oversee the development of the battery storage system in Lempäälä in the southern municipality of Pirkanmaa, near Tampere, which will support the local electricity grid. It is expected to be built by April 2024.
