Power station generator manufacturing plant

Overview

Who is Shanghai Electric Power Generation Equipment Co Ltd?

(I) Enterprise Profile Shanghai Electric Power Generation Equipment Co Ltd Generator Plant is a joint venture established in December 1995 with Siemens. The enterprise is one of the largest and most advanced power generation equipment suppliers in the world. (ii) Personnel Profile.

How has the power generation industry changed since 2004?

Since 2004 the Group's volume of production and sales, quantity of orders in power generation equipment have remained ranking first in the World, the power generation engineering industry has numbered among the top global groups, the full life-cycle service industry has started to make a figure, and the new energy industries are rapidly emerging.

Why is Shanghai Electric a leading power plant equipment supplier?

In response to the global climate change, Shanghai Electric as one of the world leading power plant equipment suppliers, has actively developed the emerging industries such as solar power generation, seawater desalination, energy storage equipment, air cooled equipment, dust-cleaning apparatus, electric drive, etc.

What is a hybrid power station?

Integrated and Decentralized hybrid power stations optimizing the energy systems of solar, wind, genset and battery energy storage. Prime and Backup power from 6kVa to 3000kVA cover all ranges of power generation applications. Includes manual types and hydraulic types powered by diesel, solar, battery energy storage, and hybrid energy.
