

EQACC SOLAR

Prague customer external power supply

Overview

Are there electrical outlets in Prague?

No, the electrical outlets in Prague are different from those in the United States. In Prague electrical outlets of types C & E are used, while the United States has electrical outlets of types A & B. Do I need a travel adapter for Prague?

The electrical outlets and power plugs in Prague are of types C & E (see images).

Do I need a travel adapter in Prague?

The electrical outlets and power plugs in Prague are of types C & E (see images). If your country uses the same electrical outlets and power plugs, you don't need a travel adapter. However, you may still need a voltage converter if the voltage is different.

Can I connect my laptop charger to an electrical outlet in Prague?

Yes, you can connect your laptop charger to an electrical outlet in Prague as long as the outlet is compatible with the charger's voltage and plug type. In Prague, the standard voltage is 230V and the standard frequency is 50Hz.

What is the standard power socket voltage in Prague?

All power sockets in Prague provide a standard voltage of 230V with a standard frequency of 50Hz. You can use all your equipment in Prague if the outlet voltage in your own country is between 220V-240V. This is the case in most of Europe, Australia, the United Kingdom and most countries in Africa and Asia.
