# **Price of 20 degree solar energy storage cabinet in Eastern Europe**

## Overview

---

How many solar storage systems are installed in Germany in 2021?

According to the German solar energy group BSW, about 141,000 new solar storage systems were installed in 2021 by German households, reaching the cumulative installation 413,000 units across the country.

How many residential energy storage systems are there in Germany?

By September 2023, Germany has installed more than 1 million residential energy storage systems and expects to add more than 400,000 units per year in the future. Volatile energy prices and the popularity of photovoltaic self-use have driven demand for residential energy storage, which is expected to continue to grow through 2030.

Will Spain install 242 MW of energy storage in 2023?

Spain will install 242 MW of energy storage in 2023 and is expected to increase to 5.8 GW by 2030. Although the foundation is solid, but the lack of core incentive policies, the subsequent growth of the market is weak.

What is Italy's energy storage capacity in 2023?

Italy's installed energy storage capacity in 2023 is 3.9 GW, and is expected to increase to 18 GW by 2030, mainly in the pre-table energy storage and household storage markets.
