## Overview

---

What is the cost of solar electricity in Vietnam?

Last year, Vietnam had a solar LCOE (Levelized Cost of Energy) of \$0.046 per kWh for solar electricity. The cost in the United States was \$0.055 per unit of power, and in Turkey it was \$0.064.

How to choose a solar energy company in Vietnam?

As solar is becoming cheaper and more popular, choosing among the many solar energy companies in Vietnam is getting harder, especially so as each installer may offer you different packages, services and energy solutions. Finding the right solar installer for your roof is important in ensuring a hassle-free installation that you are satisfied with.

Is Vietnam a good place to invest in solar panels?

When exploring the solar panel industry in Vietnam, several key considerations come into play. The country has made significant strides in promoting renewable energy, driven by government incentives and policies aimed at increasing solar capacity to meet energy demands.

Where are solar panels installed in Vietnam?

This photo taken on 23 April, 2019 shows solar panel installations and a wind turbine at the Phu Lac wind farm in southern Vietnam's Binh Thuan province. (AFP Photo)
