Price of solar panels installed in Magadan

Overview

How much do solar panels cost in Pakistan?

As of October 2024, the average solar panel price in Pakistan is between Rs. 28 and Rs. 32 per watt. This is the data of the end of September 2024, recorded at Rawalpindi/Islamabad. At the moment, the prices of solar panels have come considerably down compared to the beginning of 2023 when the prices hovered around Rs. 130/watt.

How much does a JA Solar panel cost in Pakistan?

In Pakistan, the JA Solar panel price generally ranges between Rs. 24 to Rs. 35 per watt, depending on factors like wattage, taxes, supply, and demand. These prices vary across different models, making it easy to find the right solar panel system that fits your budget.

How much are LONGi Solar panels in Pakistan?

The price of Longi Solar panels in Pakistan is around Rs. 17,000 to 19,000. This range is for A-Grade Longi Himo-5, Himo-6 and Himo-6 X solar panels. The difference in the prices is due to the wattage of the panel; they may come in various capacities, from 540 to 580 watts. We don't deal in B-grade panels, so not sure about their prices.

How much does solar energy cost in Islamabad?

Islamabad sees prices between Rs. 19,000 and Rs. 34,500, with more competitive options in areas with a higher demand for solar energy. In smaller cities like Faisalabad and Multan, prices can be slightly lower due to reduced shipping and installation costs. To get accurate pricing, always check with local suppliers in each city.
