Prices of container solar panels in San Jose

Overview

As of December 2025, the average solar panel system costs \$2.35/W including installation in San Jose, CA. How much do solar panels cost in San Jose?

As of May 2024, the average solar panel system costs \$2.59/W including installation in San Jose, CA. For a 5 kW installation, this comes out to about \$12,951 before incentives, though prices range from \$11,008 to \$14,894. After the federal tax credit, the average price drops by 30%. You'll probably pay even less than what we show here.

How much does a 5 kW solar system cost in San Jose?

While a 5 kW system will only cost you \$12,951 in San Jose, CA, doubling the system size effectively doubles the price, so you'll pay about twice that for a 10 kW system. The higher the price tag, though, the more you'll get back as a credit towards your federal tax bill. Are solar panels worth it in San Jose, CA?

How much do solar panels cost in California?

In this article, we'll explore the cost of solar panels in California, the factors that influence these costs, and how homeowners can make the most out of their investment. The average cost of installing solar panels in California ranges from \$2.50 to \$3.45 per watt.

Are solar panels a good investment in San Jose?

Solar panels can save you money on power bills over many years, but they can also be a big investment. That's why many San Jose homeowners decide to finance their solar panel systems to make going solar more affordable.
