Prices of solar modules produced in Northern Cyprus

Overview

How much do solar panels cost in Cyprus?

Below, we've prepared an approximate guide to the costs of different solar panel system sizes, including the potential yearly savings and the estimated payback period. These numbers are based on average installation prices in Cyprus and an electricity rate of around €0.30/kWh.

What are solar panels used for in Cyprus?

Solar panels in Cyprus are used for residential, industrial and commercial properties. Other than home use, many businesses install photovoltaic panels in Cyprus for self-consumption. That is, they use the energy the photovoltaic system generates directly, but cannot store any excess energy for following months.

What is a commercial photovoltaic system in Cyprus?

Commercial photovoltaic systems in Cyprus are usually used by businesses for self-consumption. That is, the energy generated by the solar panels is solely used for the building where the panels are installed.

Are solar panels a good investment in Cyprus?

Electricity prices in Cyprus remain some of the highest in the EU. Households and businesses are constantly searching for ways to reduce their monthly bills. Solar panels in Cyprus are the perfect solution: ☐ Lower Electricity Bills – Once installed, solar panels in Cyprus can reduce your dependence on the grid by up to 70-100%.
