Purchase cost of container generator in Gothenburg Sweden

Overview

What is the VAT rate in Gothenburg?

Sweden (EU): Standard VAT is also 25%, and customs duties follow EU rates by product. LCL and FCL rates into Gothenburg are subject to the same tax and duty regime. Example: Importing electronics worth \$10,000 with a 5% duty means \$500 in duties. VAT (25%) is applied on \$10,500, totaling \$2,625 VAT, and a grand total of \$13,125.

What is the most cost-effective solution for Swedish importers in October 2025?

Sea freight remains the most cost-effective solution for Swedish importers in October 2025, with rates declining significantly after September's adjustments. Demand for autumn restocking continues, especially for 40GP containers. Compared to September, October sees significant price declines across FCL modes.

How much does it cost to ship a container?

Costs depend on the shipping method. LCL costs typically range from \$300 to \$400 per cubic meter. FCL costs around \$2,000 to \$3,000 for a 20-foot container and \$3,000 to \$5,000 for a 40-foot container. Air freight costs are generally \$4 to \$6 per kilogram, while express shipping ranges from \$5 to \$10 per kilogram.

How much CO2 does a HYFLEX generator save?

Compared to conventional diesel power generators running continuously, a 1 (megavolt-amperes) MVA HyFlex can mitigate up to 1,600 tons of diesel fuel per year, translating into 5,800 tons of CO2 saved.
