

## EQACC SOLAR

# Purchase link for 60kWh solar-powered shipping containers for ships

Energy storage(KWH)

**102.4kWh**

Nominal voltage(Vdc)

**512V**

---

Outdoor All-in-one ESS cabinet

## Overview

---

Can solar power a container ship?

They designed a solar and battery tech stack that can completely power a container ship at standard operating speeds. The transition to cleaner fuel is just one way to decarbonize the shipping industry. New retrofit technologies are emerging that can significantly reduce shipping emissions with less wait time.

How do shipping companies use solar energy?

Shipping companies are also exploring innovative designs, such as solar sails and solar-assisted propulsion, which leverage both wind and solar energy for optimal efficiency.

Can solar power be used in inland shipping?

For the first time in inland shipping, solar energy can be transferred directly to the vessel's drivetrain, advancing clean propulsion technology. The Blue Marline is the first inland shipping vessel capable of hybrid sailing with solar power. Wattlab.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.
