# **Qatar plans to build new energy storage project**

## Overview

---

What is Qatar energy's new sustainability strategy?

Qatar Energy launched a new Sustainability Strategy in January 2021 that establishes a number of targets in alignment with the goals of the Paris Agreement and sets in motion a plan to reduce greenhouse gas emissions by 25% by 2030.

How does the EnergyPLAN model work in Qatar?

This study uses the EnergyPLAN tool to analyse Qatar's energy system. The model does this by analysing the economic and technical consequences of different resource integration and investments. EnergyPLAN is an input-output model, and its simulation procedures are described in Fig. 4.

What are the new projects in Qatar?

Three new projects are underway in Qatar: the Al Gharafa, Umm Al Saneem, and Rawdat Al Khail parks. These parks will feature fully air-conditioned tracks, a unique addition. Ashghal and the environment ministry are responsible for their construction.

How much does Qatar spend on infrastructure projects?

For the medium term, the Qatari government has identified several urgent projects, earmarking QR54 billion (\$15 billion) for these. In the second quarter of 2021, spending on major infrastructure projects totaled QR15 billion (\$4 billion) — 20.8% of the state's spending budget.
