Request to purchase uninterruptible power supply

Overview

Should you buy an uninterruptible power supply?

When load shedding occurs, the question of whether to buy an uninterruptible power supply (UPS) becomes a popular topic among consumers and small businesses. However, if you've attempted to purchase a UPS, you may have encountered technical terms and hardware features that are confusing.

What are Uninterruptible Power Supplies (UPS)?

Uninterruptible power supplies (UPS) are devices that allow machines to keep their field power supplies, programmable logic controllers (PLCs), and communications devices functioning during an unexpected outage. They offer a means of achieving this.

How do I know if my ups is Energy Star certified?

The U.S. Environmental Protection Agency (EPA) provides UPS efficiency levels and product specification information on its ENERGY STAR website. Manufacturers meeting these requirements are allowed to display the ENERGY STAR label on complying models. Get a list of ENERGY STAR-certified UPS.

Does DLA offer an ENaC for UPS?

DLA does not currently offer an ENAC for UPS models. The UNSPSC for UPS is 39121011. When selecting a UPS for your downstream equipment, consider equipment type, size, and number; the level of power conditioning required; redundancy; and the length of uptime required in the event of an outage.
