# Requirements for portable power supplies in Cordoba Argentina

## Overview

---

What are the new electrical safety regulations in Argentina?

On Febru, the Secretary of Industry & Commerce in Argentina published new resolutions— Resolution 16/2025, Resolution 17/2025, and Resolution 25/2025 —that revoke the former Resolution 169/2018 and establish updated technical regulations to govern Electrical Safety Certification in Argentina.

Do I need a certified power plug for Argentina?

Under these guidelines, any plug can be used with a certified adapter disclaimer that meets the standards of IRAM 2073/2071. The disclaimer must include a tag that indicates the product does not come with a standard power plug for Argentina, and that a certified grounded adapter is necessary to ensure safety.

Are cord plugs allowed in Argentina?

These Resolutions include updates to labeling for cord plugs. Any plug is allowed with a certified adapter disclaimer with IRAM 2073/2071 with the mandatory tag stating that the product is not supplied with a standard power plug for Argentina, and that the use of a certified adapter with grounding is required so that safety remains uncompromised.

What type of electrical outlet does Argentina use?

Argentina uses Type I electrical outlets with standard voltage of 220V and 50Hz frequency. If your device plugs don't match Argentina's standards, we recommend purchasing suitable travel adapters in advance to ensure proper use. What power plug types are used in Argentina?
