Retail of 600kW Mobile Energy Storage Container in Western Europe

Overview

Which country is promoting the development of residential energy storage?

In terms of residential energy storage, the Polish government has launched Moj PRD 5.0 subsidy program to encourage the development of residential energy storage. Sweden's installed battery storage capacity is expected to grow from 503 MW in 2023 to 3.8 GW in 2030, with high revenue levels in the ancillary services market driving the market growth.

What is the European energy storage inventory?

A new interactive platform delivers real-time clean energy storage insights as Europe shifts toward sustainable energy sources. Energy storage helps to balance supply and demand. The European Energy Storage Inventory is the first of its kind at European level to show all forms of clean energy storage solutions.

Which energy storage technology is the most popular in Europe?

Pumped hydro is the most widely used technology for energy storage in Europe and worldwide, but batteries and hydrogen have come into the spotlight over the last decade as a recent trend in the energy storage market.

Will Sweden introduce a new capacity market mechanism in 2028-2029?

The Swedish government plans to introduce a new capacity market mechanism in 2028-2029 to support the further development of the energy storage market. The Swiss energy storage market is expected to grow from 318 MW in 2023 to 1.3 GW in 2030.
