# **Rtk base station power flashes**

## Overview

---

How do I power a RTK base station?

To power the base station from a power bank or PC. RTK base station has an SMA connector to connect an antenna. RTK base station does not include, but requires a good quality GPS/ GNSS antenna. RTK base station supports full L1/L2/L5 bands.

What happens if your RTK base station is not set correctly?

Think of your RTK base station like an anchor. It sends corrections to your rover so your measurements are precise. But if that anchor isn't placed correctly, everything you measure will be off — sometimes by several feet. If not setup correctly, your day-to-day measurements won't line up.

Does RTK base station have an SMA connector?

RTK base station has an SMA connector to connect an antenna. RTK base station does not include, but requires a good quality GPS/ GNSS antenna. RTK base station supports full L1/L2/L5 bands. If you want to get the most out of this base, we recommend to use Budget Survey Tripleband GNSS Antenna (IP66).

What is ardusimple RTK base station?

Update (17/08/2025): We have plenty of stock of all our products, find us also in and Shop now The ArduSimple RTK Base Station, powered by the Septentrio mosaic-X5 module, is designed to function as a Continuously Operating Reference Station (CORS) to provide high-precision RTK corrections through the internet.

-  Efficient Higher Revenue
  - Max. Efficiency 97.5%
  - Max. PV Input Voltage 600V
  - 150W Peak Output Power
  - 2 MPPT Trackers, 150W DC Input Overvoltage
  - Max. PV Input Current 15A, Compatible with High Power Modules
-  Intelligent Simple O&M
  - IP65 Protection Design: support outdoor installation
  - Smart I/O Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
  - DC & AC Type II SPD: prevent lightning damage
  - Battery Reverse Connection Protection
-  Flexible Abundant Configuration
  - Plug & Play, EPS Switching Under 10ms
  - Compatible with Lead-acid and Lithium Batteries
  - Max. 6 Units Inverters Parallel
  - AFG Function (Optional): when an arc fault is detected the inverter immediately stops operation
