

EQACC SOLAR

Serbia Power Construction Energy Storage Project

Overview

Caption Fortis Energy receives construction permit for a landmark 270 MWp solar + 72 MWh battery storage project in Serbia, strengthening the region's clean energy future. Why should Serbia invest in solar power plants?

Located throughout the country, these solar power plants will help Serbia improve energy security, avoid expensive energy imports, and achieve electricity independence at an affordable price. The modernization of the EPS and renewing Serbia's Energy Generation Portfolio will have a lasting impact on communities throughout Serbia.

What is Serbia solar PV?

The electricity generated from the Serbia Solar PV will offset 1,900,000t of carbon dioxide emissions (CO₂) a year. UGT Renewables Serbia Solar PV will be a 1,000MW solar PV power project developed in a single phase. Articles, videos and more about our projects in Serbia.

What is UGT renewables Serbia solar?

UGT Renewables Serbia Solar is a ground-mounted solar project, which is planned over 2,000 hectares. The electricity generated from the Serbia Solar PV will offset 1,900,000t of carbon dioxide emissions (CO₂) a year. UGT Renewables Serbia Solar PV will be a 1,000MW solar PV power project developed in a single phase.

What jobs will be created in Serbia?

In addition to helping Serbia reach its National Energy and Climate Goals, local jobs will be created in fields including Surveying, Spatial Planning, Power System Assessment, Legal/Regulatory Tasks, and Project Construction. UGT Renewables Serbia Solar is a ground-mounted solar project, which is planned over 2,000 hectares.
