## Overview

---

What is a SWT solar container?

SWT solar container uses PV and battery to supply power to the load, and diesel generator as a backup power supply to supply power to the load when PV and battery are insufficient. Designed to provide flexible options that are configured according to your power needs. Scalable and reproducible, ensuring optimal performance and efficiency.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

How a solar power container can meet the electricity demand?

Solar power Containers can meet the electricity demand of the engineering site through rapid deploym. Port electricity supporting scene; Seawater desalination scene; Island floating shelter scene. Port . By integrating efficient photovoltaic modules and energy storage systems, solar power container can .

Why should you choose a solar storage container?

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy. Lower energy/maintenance costs ensure operational savings.
