# **Shipping cost of solar glass**

## Overview

---

What is the shipping cost for this solar panel?

The standard shipping charge for up to 11 solar panels is \$250. For every additional 4 panels, the shipping cost is increased by \$25. In the event, the product is only available on the East or West coast, a custom quote will be sent to you before the order is processed.

How are solar panels shipped?

Most solar panels are shipped via 20ft or 40ft containers. Depending on the quantity, you may choose between FCL (Full Container Load) or LCL (Less than Container Load). FCL: If you are importing a large number of solar panels, booking a full container is cost-effective and provides better security for your goods.

What are PV solar cell glass price developments?

This post is a summary of the PV solar cell glass price developments. The price developments of PV solar cell glass are expressed in US\$ prices converted FX rates applicable at the time when the price was valid. PV solar cell glass price index developments are calculated from multiple separate sources of data to ensure statistical accuracy.

How to ship solar panels from China?

**Shipping Methods** You have two main shipping options when importing solar panels from China: sea freight and air freight. Each has its advantages, depending on your needs. **Sea Freight:** Sea freight is the most economical option, particularly for large shipments. It takes longer but significantly reduces costs per unit.
