# Singapore Communications 5g Base Station

**ESS**

**61.44kWh**

**40.96kWh**

## Overview

---

Does Singtel offer 5G?

Yeow Lian noted that Singtel currently offers nationwide 5G Standalone (5G SA) services with a network of more than 1,500 5G mobile base stations across Singapore. “Singtel has always invested ahead in technology and infrastructure so we have the necessary tools, products and solutions to support the nation’s ambitions.

Does Singapore have a 5G network?

Instead of developing Non-Standalone (NSA) networks on top of 4G networks, the Singaporean government has been directly facilitating the deployment of 5G SA mobile networks since 2019, for example through allocating spectrum to national players.

How many maritime 5G base stations are there in Singapore?

MPA said five Maritime 5G base stations have been installed and operationalised as of 2024. Up to seven more base stations will be operationalised by 2025 to complete Maritime 5G coverage in all Singapore port’s major fairways, anchorages, terminals and boarding grounds.

How will Singapore's maritime 5G network improve connectivity?

“With the enhancement of coverage of the Maritime 5G network, users of the Singapore port will experience stronger and more stable connectivity. The enhanced coverage is also expected to unlock new 5G-enabled maritime services and innovations,” it said on its website.
