

**EQACC SOLAR**

# **Singapore Energy Storage Equipment**

## Overview

---

What is Singapore's first utility-scale energy storage system?

Singapore's First Utility-scale Energy Storage System Through a partnership between EMA and SP Group, Singapore deployed its first utility-scale ESS at a substation in Oct 2020. It has a capacity of 2.4 megawatts (MW)/2.4 megawatt-hour (MWh), which is equivalent to powering more than 200 four-room HDB households a day.

What are energy storage systems?

**TORAGE SYSTEMS** 1.1 Introduction Energy Storage Systems ("ESS") is a group of systems put together that can store and release energy as and when required. It is essential in enabling the energy transition to a more sustainable energy mix by incorporating more renewable energy sources that are intermittent.

What is accelerating energy storage for Singapore (ESS)?

For instance, the Accelerating Energy Storage for Singapore ("ACCESS") programme promotes use cases and business models with industry partners and other government agencies. The programme also helps to secure space, match demands and solutions, and facilitate regulatory approvals for ESS deployment.

What are the safety measures for electrical energy storage in Singapore?

fire risks and electrical hazards. Some safety measures include: Adhering to Singapore's Electrical Energy Storage Technical Reference. Deploying additional fire suppression systems (e.g. powder extinguisher). Having an e
