Singapore Solar Container 15MWh

Overview

Will solar canopies be installed at Singapore's ports?

Over at Singapore's ports, MPA is considering erecting solar canopies over the container storage yard and roads within Tuas Port, which is being built in phases and will be fully completed in the 2040s. At Jurong Port, which has been in operation since 1965, the idea is to install solar canopies over the steelyard and roads there.

How many kWh can a solar panel generate in Singapore?

Dr Lin said: "In Singapore, each square metre of solar panel can generate approximately 250 kWh (kilowatt-hours) of electricity annually. Given the expansive areas available in the ports, this presents a huge opportunity for renewable power generation for Singapore."

Are solar canopies becoming more common in Singapore?

Dr Serena Lin Fen, head of urban solar solutions at the NUS Solar Energy Research Institute of Singapore, said solar canopies are becoming increasingly common in Singapore, and they can already be found on rooftops, and above carparks and foyers.

Should solar canopies be installed at Jurong Port?

At Jurong Port, which has been in operation since 1965, the idea is to install solar canopies over the steelyard and roads there. MPA said in its tender that the solar canopies should be designed to have minimal impact on operations, yard space and the cargo-handling capacity at the two ports.
