# **Solar Container DC Budget Scheme**

## Overview

---

Does DC have a solar procurement program?

Since 2018, the DC Sustainable Energy Utility has operated the solar procurement process for SfA for DOEE. The program was established to support DC's Renewable Portfolio Standard (RPS) goals to achieve 100 percent renewable energy by 2032 and 15 percent of energy from local solar by 2041.

What is a solarcontainer?

The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Solar panels lay flat on the ground. This position ensures maximum energy harvest Panels lays flat on the ground.

Will US-made battery energy storage systems become cost-competitive in 2025?

US-made battery energy storage system (BESS) DC container solutions will become cost-competitive with those from China in 2025 thanks to incentives under the Inflation Reduction Act (IRA), Clean Energy Associates said. The solar and storage technical advisory firm revealed the forecast in its new quarterly BESS Price Forecasting Report for Q3 2023.

Will US-made battery storage containers become cost-competitive with China in 2025?

Featuring the most active solar and storage transactors, join us for a packed two-days of deal-making, learning and networking. US-made battery storage DC containers will become cost-competitive with China in 2025 thanks to the IRA, Clean Energy Associates said.
