# **Solar Light Outdoor Solar Charging**

## Overview

---

### How to charge solar lights?

The best way to charge solar lights is with sunlight. However, even if you don't have access to direct sunlight, you can still charge your solar lights in other ways. In overcast or winter weather, you can easily charge solar lights with indirect sunlight. What's more, you can even charge your solar lights with no sunlight at all!.

### How to charge rechargeable batteries with solar lights?

The best way to charge the rechargeable batteries using the solar panel of your solar light is with direct sunlight. You can also use incandescent bulbs or indirect sunlight but it is not ideal. Remember, to charge solar lights you do not need much sunlight.

### Can a solar watch be charged indoors?

Yes, the same method for charging a solar watch indoors can be used to charge a solar watch without sun. Both solar lights and solar watches can be charged using artificial light sources, such as LED light bulbs or incandescent bulbs. This allows for convenient indoor charging without the need for direct sunlight.

### How much sunlight does it take to charge solar lights?

This usually takes about 8 to 12 hours of sunlight. The best place to do this is outdoors where they can get unobstructed sunlight throughout the day. Do you have a set of solar lights that you've been wanting to use but haven't gotten around to charging yet?
