Solar PV Water Pump Prices in East Africa

Overview

Who is solar pumps Africa?

Solar Pumps Africa - Supplier and installer of solar powered water pumps. Supplier and installer of solar powered water pumps. SCL Water is an experienced supplier and installer of solar powered water pumps and specialise in the export of SOLAR WATER PUMPS and associated equipment to Africa.

How much does a solar water pump cost?

A solar water pumping system comes in a wide range of prices, from around \$20 for a small water fountain pump to well over \$1,000 for deep well submersibles or irrigation pumps. The cost will depend on the size and power of the pump, the manufacturer, and the price of additional accessories you may need.

How much does solar PV cost in Africa?

On-grid commissioned and planned utility-scale solar PV projects between 2014 and 2018 in Africa range from around USD 1.2 to USD 4.9/W (USD 1 200 to 4 900/kW). Although Africa is currently home to a very small set of utility-scale solar PV projects, costs have been declining over time.

What is the largest solar PV market in Africa?

This is an important issue, because although the utility-scale grid-connected solar PV market is the largest market in Africa in terms of MW deployed, the of-grid market is the largest in terms of number of systems deployed (IRENA, 2015b). The of-grid market comprises SHS and mini-grid systems.

Solar PV Water Pump Prices in East Africa
