# Solar Panel 5v Wholesale

## Overview

---

What is a 5V solar panel?

WSL Solar's 5V solar panel is built with the latest most efficient crystalline silicon solar cells or super high efficiency Sunpower solar cells. These 5v solar panels are great for charging your 3.2V DC batteries and ideal for use in off grid applications such as GPS tracking, educational kits, small electronic devices, LED lighting etc.

Where to buy wholesale solar panels?

If you are looking for a place to buy wholesale solar panels, you've found it. A1 SolarStore offers PV modules from all over the world for competitive prices and with fast delivery. Let us tell you a little about the panels that we offer, how we deliver them and what kind of solar panel you might need.

How much does a 5 kW solar panel cost?

The average cost of solar panel installation by a professional solar company is around \$2.95 per watt. For a typical 5 kW (5,000 watt) solar panel system, that works out to \$14,750. On the other hand, a 5 kW DIY solar panel kit costs between \$1.00-\$1.50 per watt.
