Is the space option the ultimate environmental solution?

For the environmentalists, The Space Option is the ultimate environmental solution. For the Cornucopians, it is the technological fix that they are relying on. For the hard core space community, the obvious by-product would be the eventual exploration and settlement of the solar system.

Does the Solar System have an anxiety about its reputation?

The solar system has no anxiety about its reputation. Ralph Waldo Emerson (1872). "The Prose Works of Ralph Waldo Emerson: Representative men. English traits. Conduct of life", p.423 Man must at all costs overcome the Earth's gravity and have, in reserve, the space at least of the Solar System. Konstantin Tsiolkovsky (2004).

How old is the Solar System?

I, 372-373. The solar system has no anxiety about its reputation. The solar system was formed 4.6 billion years ago, and the oldest fossils on Earth have been dated at about 3.8 billion years. Sometime between these two points, the chemicals of the young planet were organized into the responsive, reproducing systems we call "life."
