# Solar container battery air transport in Bergen Norway

## Overview

---

What is battery Norway?

Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain. Battery Norway will closely follow the EU's battery strategy and be the Norwegian "mirror" advising the authorities. Documents and downloads:.

How will battery Norway follow the EU's Battery strategy?

Battery Norway will closely follow the EU's battery strategy and advising the authorities. Battery Norway (Norwegian Battery Platform) is a national industrial collaboration platform focused on innovation and sustainable value creation opportunities, encompassing the entire battery supply chain.

How does solar energy logistics work?

Using our global network of air and sea carriers, we design a solar energy logistics solution that transports your solar panels or solar panel components efficiently and safely to their destination.

Can lithium-ion batteries be shipped by air?

But there's good news: Lithium-ion batteries can be shipped safely by air if shippers take proper precautions. As with all hazardous goods, safely shipping lithium-ion batteries by air requires having personnel with the appropriate expertise and training and complying with strict labeling and packaging requirements.
