

EQACC SOLAR

Solar container outdoor power for construction

Overview

Why do you need a solar container?

Deploy power in hoursPerfect for remote locations, construction sites, events, and emergency response situations. Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere.

What is a solar container?

Our Solar Containers are designed in a way to maximize ease of operation. It's not only meant to transport PVs but also to unfold them on site. It is based on a 20' sea container. The efficient hydraulic system helps quickly prepare the Solar to work. Because of their construction, our containers offer unmatched flexibility and mobility.

What is a boxpower solarcontainer?

The BoxPower SolarContainer is a pre-wired microgrid solution with integrated solar array, battery storage, intelligent inverters, and an optional backup generator. Microgrid system sizes range from 4 kW to 60 kW of PV per 20-foot shipping container, with the flexibility to link multiple SolarContainers together or connect auxiliary arrays.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Solar container outdoor power for construction

Solar Container for Construction , On-Site Power Solutions

The Solar Container for Construction is rapidly becoming indispensable for modern construction. Continuous power delivery enhances project sustainability and supports compliance with ...
