

EQACC SOLAR

Solar glass instant

Overview

What is photovoltaic smart glass?

Photovoltaic glass, also known as solar glass or transparent solar panels, is a type of smart glass that uses embedded photovoltaic cells to convert sunlight into electricity to generate electricity.

What is Photovoltaic Glass?

Unlike traditional solar panels that absorb visible light, photovoltaic glass converts primarily ultraviolet (UV) and infrared light into electricity, making it suitable for windows, facades and other transparent surfaces of buildings, vehicles and equipment.

What makes Acht a top Photovoltaic Glass manufacturer?

The company is a prominent player in the photovoltaic glass market, offering ultra-clear rolled glass and TCO glass essential for solar energy applications. ACHT's advanced technology, R&D system, and extensive corporate culture have solidified its position as a top photovoltaic glass manufacturer.

How does eyrisetm solar glass work?

natural light and ideal temperature throughout the day. It only takes a second for eyrise™ solar glass to darken and provide immediate protection from solar glare and heat. As sunlight intensifies or diminishes over time, easily fine-tune your shade at will by adjusting precisely your window tint. combined with transparency.

Solar glass instant

eyrise S350 INSTANT SOLAR SHADING GLASS

USER EXPERIENCE Instant and on demand. eyrise® can immediately respond to quickly changing weather conditions as well as manual user input. eyrise® solar shading glass ...
