Solar panel 50 watt water pump

Overview

What is a solar water pump kit?

The Solariver Solar Water Pump Kit is perfect for large fountains, ponds, waterfalls and rainwater collection. Its solar panel comes with a stake and can be placed anywhere due to using the 16 feet long chord or even an additional 16' extension if needed.

How to use a solar water pump?

The Sunsbell Solar Water Pump is ideal for a garden patio or pond. It comes in with a 3 m long cable and 4 different nozzle heads. It's very easy to use- just immerse the pump under water, place the panel under full sunlight and it will start automatically. Besides, the beautiful waterfall will give your garden a unique, special look.

What is a solar water pump system?

A solar water pump system typically consists of the following components:
Solar Panels: These convert sunlight into electricity. Controller: It regulates the power from the solar panels to the pump. Pump: This is the device that moves water from the source (well, river, or reservoir) to the desired location.

What type of solar panel do I need for my water pump?

For water pumps, monocrystalline and polycrystalline panels are generally recommended due to their higher efficiency and reliability. The power requirement of your water pump is one of the most critical factors in determining the type of solar panel you need. The power requirement is usually measured in watts (W) and depends on factors such as:

Solar panel 50 watt water pump

Solar Water Fountain Pump with Solar Panel

Product features: Free Solar Energy Runs all day as long if it is Sunny. Powerful Solar DC Pump Powerful 22, 50, 70 Watt Solar Panel will last for 25 years This solar pump is designed to be ...

?50 Watt Solar Panel?The solar water pump is upgrade to 50W high efficiency and large area solar panel, provides strong power and stable water spray. Using tempered ...

 Efficient Higher Revenue

- Max. Efficiency 97.5%
- Max. PV Input Voltage 600V
- 150% Peak Output Power
- 2 MPPT Trackers, 150% DC Input Oversizing
- Max. PV Input Current 15A, Compatible with High Power Modules

 Intelligent Simple O&M

- IP65 Protection Degree: support outdoor installation
- Smart I-V Curve Diagnosis Function: locate PV string faults accurately and automatically detect faults
- DC & AC Type II SPD: prevent lightning damage
- Battery Reverse Connection Protection

 Flexible Abundant Configuration

- Plug & Play, EPS Switching Under 10ms
- Compatible with Lead-acid and Lithium Batteries
- Max. 6 Units Inverters Parallel
- AFCI Function (Optional): when an arc fault is detected the inverter immediately stops operation
