

EQACC SOLAR

Solar panel steel column manufacturer

Overview

Who makes structural steel universal columns?

InfraBuild Steel Centre supplies structural steel universal columns in a range of sizes. Manufactured in Australia from 300PLUS steel, InfraBuild Steel Centre's structural steel universal columns exceed the minimum requirements of AS/NZS 3679.1.

What are solar panels made of?

All the profiles used in our solar panel structure systems are made of S350-GD galvanized structural steel (from Zn 450 up to ZnMg 310 gr/m²), corrosion resistant, have a very low weight and have a high strength. Because of this, the structure will last much longer than the solar panels mounted on it.

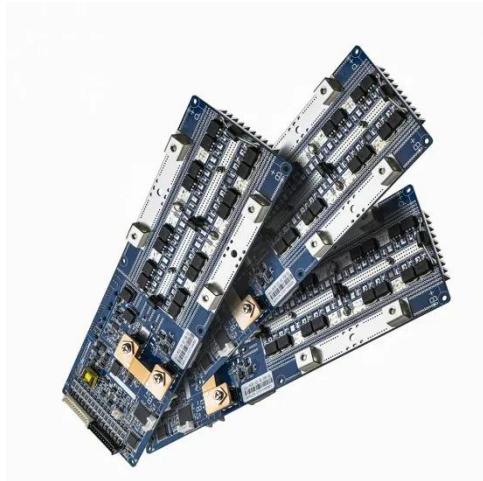

Who are solar steel & imports?

Solar Steel and Suports are the two companies in the group dedicated to designing and supplying ad hoc photovoltaic solutions for each type of project.

Why should you choose a metal structure for solar panels?

As solar panels are becoming more and more popular around the world, more and more businesses are looking to take advantage of them. The metal structures offered by us are ideal for photovoltaic panels (solar panels), and because they are made of light steel profiles designed and manufactured with high precision, the assembly becomes easy and fast.

Solar panel steel column manufacturer

China Manufacture of Steel Column Solar Carport System, Steel Column

The modern-designed steel column photovoltaic carport combines functionality, aesthetics and environmental adaptability, and is an efficient space utilization solution for photovoltaic power ...
