Solar panels in Melbourne

Overview

Solar panels are affordable in Melbourne, with a 6.6kW system costing around \$5,350 after rebates—making the city one of the most cost-effective locations for solar installations in Australia. Are there solar panels in Melbourne?

According to the Australian Photovoltaic Institute, over 70% of rooftops in suburbs like Clyde already have solar power. The overall adoption rate across Melbourne is lower, with an estimated 25% of homes having installed solar panels. What is the best orientation for solar panels in Melbourne?

What affects the price of solar panels in Melbourne?

Many variants affect the price of panels in Melbourne, and you should consider each one: All Melbourne solar panel installations will receive the Federal government solar rebate providing the solar panels are approved by the Clean Energy Council, and an accredited installer performs the install.

How much does it cost to install solar panels in Melbourne?

The cost of installing solar panels in Melbourne can vary, depending on things like the size of your system, the type of panels you choose, and how complicated the installation is. On average, you're looking at anywhere from \$3,000 to \$7,000+ for a residential installation, after any rebates or incentives are applied.

Why should you get solar panels in Melbourne?

With solar panel installation in Melbourne, you're also reducing your carbon footprint, using cleaner energy, and making your home more self-sufficient. If you add a battery down the line, you can even store power for night-time use or in case of a blackout. It's a win for your wallet and the planet. Is It Worth Getting Solar Panels in Melbourne?
