

**EQACC SOLAR**

# **Solar power satellite factory in Ireland**

## Overview

---

Are there solar farms in Ireland?

There are a number of significant solar farms currently being developed in Ireland; that is they are either under construction, in development, or have received planning consent. Clonfad, Garreenleen and Lysaghtstown are three projects of note.

Where is the first large-scale solar farm in Ireland?

The first large-scale ground mounted solar farm to supply electricity to the Irish grid has been opened near Ashford in Co Wicklow and is now operational. Millvale solar farm incorporates 33,600 solar modules covering 25 hectares of land.

What is Voltalia doing in Ireland?

This is an addition to Voltalia's Irish footprint, where it has over 540 MW of projects. Voltalia a major player in renewable energy has been chosen by Ørsted to deliver engineering, procurement and construction (EPC) for its first solar farm in County Carlow, Ireland.

Is lysaghtstown solar farm under construction?

Additionally, the Lysaghtstown Solar Farm in County Cork is under construction by Power Capital Renewable Energy. Covering 373 acres, this 131 MW project is anticipated to be operational this year, although still designated as 'under construction' by the developers.
