Solar power station for sale in Canberra

Overview

How to find out about solar panels in Canberra?

If you want to find out about solar panels in Canberra's cost, reach out to us. We have various packages for our clients and depending on your energy needs, we can suggest one that matches your needs and budget. Our experts will also take you through the specifications of the solar panels so that you are able to make an informed choice.

How much does a 5kw Solar System cost in Canberra?

The cost of a 5kW solar panel system will depend on the quality of panels and inverter installed and the company doing the job. For the 6kW solar system in Canberra ACT (the most popular size Australia-wide), the average cost in Canberra is around \$7,387. The table below shows the average cost of solar PV systems of different sizes in Canberra.

Should you install solar panels first in Canberra?

Many solar panels Canberra customers are installing solar panels first to lower power bills and keeping their options open to add a battery once prices come down (we expect they will over the next few years).

Why should you install a solar PV system in Canberra?

Our solar Canberra prices are affordable and we will provide the best packages to supplement your energy needs. Installing a Solar PV System at home will help you offset your energy consumption, reducing or even eliminating the need to buy energy from your electricity retailer.
