

EQACC SOLAR

Solar power station portable in Mexico

Overview

What is solar power Mexico?

Solar Power Mexico is the first exhibition and conference specialized in the energy and solar technology segment, a business with growth rates of over 25% and an expected investment of over USD \$100 billion in renewable energy by 2031. The event will feature a seminar programme and exhibition at Poliforum Leon, Guanajuato.

Where are solar power plants made?

Headquartered in Shanghai with 50,000+ production bases across Jiangsu, Zhejiang, and Guangzhou, the company employs 1,000+ professionals, including 20+ engineers driving energy storage technology. ISO/TUV/CE-certified units deliver rapid-deploy solar power for off-grid, emergency, and mobile applications, reducing emissions by 70% vs diesel.

Why should you choose a modular solar power container?

Go big with our modular design for easy additional solar power capacity. Customize your container according to various configurations, power outputs, and storage capacity according to your needs. Lower your environmental impact and achieve sustainability objectives by using clean, renewable solar energy.

Why do you need a solar container unit?

Our solar containers ensure fast deployment, scalability, customization, cost savings, reliability, and sustainability for efficient energy anywhere. With our pre-configured solar container unit, you can get going quickly, and the folding solar panels for containers can be deployed in less than three hours.

Solar power station portable in Mexico
