Does Myanmar utilize solar energy?

Myanmar has high solar irradiation levels in many areas, but no large-scale solar systems have been installed due to the largely mountainous terrain, protected areas, and limited grid system, which weaken the energy potential from this source.

Will Myanmar build solar power plants?

On the occasion, Secretary of the State Administration Council Lt-Gen Aung Lin Dwe said as Myanmar is rich in renewable energy sources such as hydropower, solar and wind power, it will make full use of the advantages provided by the nature and build solar power plants.
