

## EQACC SOLAR

# Somaliland installs solar panels

## Overview

---

Can solar panels be used in Somalia?

Somalia's abundant sunlight makes it ideal for solar energy. Solar panels convert sunlight into electricity, which can be used immediately or stored in batteries for later use. Our systems are designed to withstand Somalia's hot climate and perform efficiently even on cloudy days.

Why should I switch to solar energy in Somalia?

Solar panels convert sunlight into electricity, which can be used immediately or stored in batteries for later use. Our systems are designed to withstand Somalia's hot climate and perform efficiently even on cloudy days. What are the benefits of switching to solar energy for my home or business?

.

How long does it take to install a solar system?

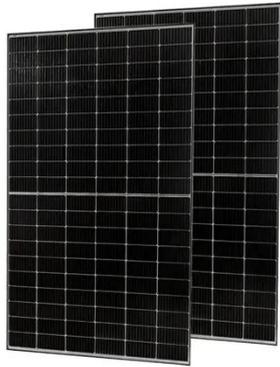

A typical residential installation can be completed in 1-3 days, while larger commercial projects may take longer. Our process includes an initial consultation, site assessment, system design, installation, and final testing. We handle all necessary permits and grid connections, ensuring a smooth transition to solar energy.

Do solar systems pay for themselves?

While there's an initial investment, solar systems typically pay for themselves over time through energy savings. We provide various financing options, including pay-as-you-go plans, to make solar energy accessible to more Somali households and businesses. What maintenance is required for a solar energy system?

## Somaliland installs solar panels
