

EQACC SOLAR

Southeast Asian solar power generation and energy storage manufacturers

Overview

What is the Southeast Asia Solar supply chain map?

This edition of the Southeast Asia Solar Supply Chain Map provides a detailed snapshot of current realities and future ambitions, as the region navigates complex trade, investment, and production challenges.

Is PV module manufacturing in Southeast Asia under pressure?

Thanks to new data, this edition includes entries such as ICA Solar and United Renewable Energy (URE), reflecting the evolving landscape of PV manufacturing in the region. Despite strong ambitions, PV module manufacturing in Southeast Asian is currently under pressure.

What's new in the 2025 Southeast Asia Solar supply chain map?

The first 2025 edition of the Southeast Asia Solar Supply Chain Map includes significant revisions and additions, driven by valuable market feedback and the region's evolving geopolitical and industrial dynamics.

Which countries are focusing on solar PV & wind energy?

Leading countries such as India, China, and Japan are primarily focusing on solar PV and wind energy to spearhead this transition. Energy storage technologies are pivotal in enabling renewable energy to contribute a larger proportion of a grid's overall generation capacity.
