

EQACC SOLAR

Stockholm Free Outdoor Communication Power Supply BESS

Overview

Where is the 10MW Bess project located?

The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets. “We are excited to deliver this project to our customer,” said Magnus Häggström, Chief Commercial Officer at Helios Nordic Energy.

What is a battery energy storage system (BESS)?

The battery project was finalized in the summer of 2022, launched by Ellevio Energy Solutions as their first Battery Energy Storage System (BESS) in Sweden. It was developed to support the Swedish TSO Svenska Kraftnät's need to create balance in the national grid.

What is a Bess & why do we need them?

“BESS are really the swiss army knives of the energy industry. They can contribute to ancillary services and peak shaving in the national grid while supporting local communities by making way for new investment opportunities.

Why did Bess invest in SE3?

This transaction supports the company's ongoing ambition to accelerate the transition to renewable energy in the Nordic region. The 10MW BESS will be strategically located in SE3, helping to stabilize the grid by providing ancillary and balancing services across frequency markets.
