

**EQACC SOLAR**

# **Storage solar container battery factory in Saudi-Arabia**

## Overview

---

Toshiba ESS, a unit of Japanese industrial conglomerate Toshiba, has launched a pilot project to test a hybrid wind-solar power plant linked to battery storage in the Kingdom of Saudi Arabia. Is Saudi Arabia a leader in battery energy storage?

The Kingdom enters the top ten global rankings for battery energy storage with ambitious future capacity goals. Saudi Arabia is establishing itself as a significant player in the energy storage sector, now ranked among the top ten global markets for battery energy storage.

Will Saudi Arabia develop a storage capacity of 48 gigawatt-hours?

Under the National Renewable Energy Program, which is overseen by the Ministry of Energy, Saudi Arabia aims to develop a total storage capacity of 48 gigawatt-hours by 2030. To date, projects totaling 26 gigawatt-hours have been tendered and are currently in various phases of development.

How is Saudi Arabia transforming its energy sector?

Saudi Arabia's energy sector is undergoing a comprehensive transformation, reinforcing its leadership position in the production and export of a variety of energy forms. By the end of 2024, it is projected that the total capacity of renewable energy projects across all stages of development will reach 44.1 GW.

What is Bisha battery energy storage project?

The Bisha battery energy storage project, recently brought online, comprises 488 advanced battery containers, providing a total storage capacity of 500 MW for four-hour durations.
