

EQACC SOLAR

Storage solar container battery factory in South-Africa

Overview

The project, located in the town of Kenhardt in Northern Cape province, has been billed as one of the world's largest hybrid solar and battery storage facilities in the world. What is battery energy storage in South Africa?

In South Africa, Battery Energy Storage is a key aspect of the first-of-its-kind hybrid project, Oya. Straddling the Western and Northern Cape Provinces, the hybrid facility will offer 86MW wind and 155MW Solar PV dispatchable power, coupled with 92MW/ 242 MWh battery energy storage.

Does South Africa manufacture batteries?

Technically speaking, South Africa has no facilities that can manufacture batteries from start to finish. That is because there is no plant producing the cells that form the basic building blocks of batteries.

Who owns the Red Sands battery energy storage system?

Updated 1st July 2025 – The Red Sands Battery Energy Storage System (BESS), set to be Africa's largest of its kind, has officially reached commercial close. Developed by Globeleq, which is 30% owned by Norfund, in partnership with African Rainbow Energy, the 153 MW/612 MWh project was signed off in June 2025 in Cape Town.

Where are solar batteries made?

However, several companies are already assembling batteries with cells imported from China and other components manufactured locally and abroad. Solar MD operates the largest battery assembly plant in the country by annual production capacity.
