São Tomé and Príncipe Off-Grid Solar Container 40ft

**2MW / 5MWh
Customizable**

Overview

Where can I install solar panels in São Tomé?

São Tomé is an ideal location for solar energy. Solar panels can be installed in existing buildings or in stand alone 20 foot containers with the help of Offgridinstaller, who can supply and fit any size of solar system with high quality lithium ion battery storage which can generate and power year round storage.

What is the population of Sao Tome and Principe?

The famous volcanic plug 'Pico Cao Grande' is 663 m high and popular with tourists. The main island, São Tomé, has most of the 200,000 population, while Príncipe has only 8,000 people. The islands total 1,000 km².

How long does it take to ship a solar container?

Standard solar container models can be manufactured and ready to ship in as little as 4-6 weeks. Customized configurations can take up to 8-10 weeks, with shipping times varying by destination. Do you offer after-sales support for mobile solar PV containers?

What is a solar panels on shipping container?

It not only transports the PV equipment, but can also be deployed on site. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Due to its construction, our solar panels on shipping container offers unmatched flexibility and maneuverability.
