**Take an outdoor power bank
with you when camping**

Overview

How to choose a power bank for camping?

Last update on 18th September 2025 / Images from Amazon Product Advertising API. Choose power banks with minimum 150Wh capacity and 20,000mAh to charge smartphones 4-6 times during camping trips. Prioritize lightweight models between 3-6 pounds with impact-resistant construction and Battery Management Systems for outdoor durability.

What do car campers use their power bank for?

The vast majority of car campers are using their power bank for just one thing: keeping that phone charged. And even though you're off the grid (at least we hope), free from the YouTube autoplay and Facebook algorithm, you'll probably still need to use your phone for at least a couple of things. Photos. Alarm clock. Offline maps.

Where do car campers store their power bank?

Most car campers will store their power bank in their car, or maybe their tent. But if you anticipate bringing yours along for a hike or having it next to you while cooking up dinner, then the Goal Zero Venture 35 might be the better choice for you.

How to choose a camping battery?

Certifications and protections against overcharge, over-discharge, and short circuits keep the power bank working safely outdoors. Finally, choose a battery that can handle more than 1,000 charge cycles. That way, it will last many camping trips, not just one.
