

**EQACC SOLAR**

# **Thailand's new inverter battery**

## Overview

---

The system integrates a 30KWH Powerwall lithium battery, an 8KVA on-off grid hybrid inverter, and high-efficiency GSL PV solar panels, delivering clean and consistent power to a residential home. Is solar hybrid energy a viable solution for sustainable living in Thailand?

**Solar Hybrid Energy Solution for Sustainable Living in Thailand** On July 28th, 2022, GSL ENERGY successfully installed a state-of-the-art solar hybrid energy system in Thailand, providing a reliable off-grid solution for home energy needs.

**What is a solar hybrid system in Thailand?**

This solar hybrid system is especially beneficial in Thailand, where electricity reliability can vary in rural or off-grid areas. By utilizing solar power, the system significantly reduces the homeowner's reliance on conventional energy sources, lowers electricity costs, and provides peace of mind in case of power outages.

**Will energy absolute invest in Thailand?**

Energy Absolute is in talks with the Board of Investment (BOI) in Thailand to discuss ways to support the company's growth. The BOI is currently holding a roadshow in China to attract leading battery cell manufacturers to invest in Thailand as part of the country's plan to establish itself as an electric vehicle manufacturing hub.

**Where are Toyota inverters made?**

Its inverter technologies are widely adopted by global automakers, including Toyota Motor Corporation, and the company holds a leading share in the global market. In Japan, production is carried out at the Anjo Plant (Anjo City, Aichi Prefecture) and the Hirose Plant (Toyota City, Aichi Prefecture).
