Overview

Why should you choose Haitai battery swap?

Haitai Battery Swap provides you with a reliable battery swap software platform, offering a one-stop hardware solution validated by a large user base. With over 7 years of battery swap operation experience, we help you incubate your battery swap business.

What is Haitai cabinet control system?

The HAITAI cabinet control system has been widely adopted by major cabinet manufacturers across China. Supports multiple configurations, including 6-slot, 8-slot, and 12-slot options. Cabinets of different configurations can be dynamically interconnected. Supports data communication modules for multiple countries.

What is a smart battery swap cabinet?

The smart battery swap cabinet aims to solve the slow charging and charging safety problems of low-speed electric vehicle batteries, and solve the transportation capacity problem for high-frequency users of electric vehicles such as food delivery drivers.

How many batteries can a lithium phosphate cabinet support?

It supports 48V/60V/72V lithium iron phosphate (LiFePO₄) and ternary lithium batteries. The 6-slot cabinet serves up to 15 users per day, often at smaller retail stores or mall entrances. It is highly flexible and supports dynamic parallel connection of multiple units.
