

EQACC SOLAR

Thin glass solar tiles

Overview

What is HanTile solar roof?

Based on Hanergy's MiaSolé high efficiency Thin Film cells, the Hantile is the ultimate roof application of thin film. Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Under all circumstances.

Why should you choose a curved solar roof tile?

Finally all visible surface of a curved solar roof tile can be efficiently used, making it possible to get maximum yield of a tile roof. Under all circumstances. Hantile has the reliable waterproofing and ventilating structures which are excellent in performance and long in service life.

What is Hanergy tile HF (wet frozen) test?

Hanergy Tile HF[wet frozen]Test In 25 degrees to 85 degrees 85% humidity environment and -40 degrees to 25 degrees without humidity environment to verify the resistance of high and low temperature performance. Hanergy Tile 3C certification Verify the safety performance of tile, including shot bag test, drop ball test, heat, moisture, radiation.

Thin glass solar tiles

Solar Tiles China Jinpo Solar Power

30W Double Glass Solar Tile
Environmentally friendly building materials. The combination of traditional building materials and thin-film solar technology can not only replace ...
