Three grid energy storage projects in Marseille

Overview

Will Acacia & Green tower build a battery energy storage system in France?

Developers Acacia, Green Tower and Eren Industries have partnered to develop and build 500MW of standalone BESS in France. Eren Industries has joined an existing partnership between Acacia and Green Tower to deploy battery energy storage system (BESS) projects in France, the company said last week (5 June).

Who is Mars renewable?

We offer All-in-One energy storage solutions and full-lifecycle services to bring value to our customers. MARS RENEWABLE is born to be a global energy storage player. Our European operation first took root in Spain and now we have teams in full function in Italy and France.

Where is Mars renewable located?

Our European operation first took root in Spain and now we have teams in full function in Italy and France. Our R&D, testing, and system integration offices and facilities are located at the Yangtze River Delta region in China. MARS RENEWABLE is committed to becoming the global leader in energy storage technology and storage asset origination.

Who backed Mars renewable?

We were blessed that we were backed by two top world investment institutions: Sequoia China and CDH Investment in this process. MARS RENEWABLE is committed to becoming the global leader in energy storage technology and storage asset origination.
