Total investment in solar container battery projects

Overview

Does totalenergies invest in battery storage projects in Germany?

TotalEnergies, on the occasion of Patrick Pouyanné's participation in the Europe 2025 conference in Berlin, and in connection with the company's integrated development in Germany's electricity sector, revealed investment decisions for 6 battery storage projects with 221 MW of new storage capacity and an investment outlay of €160mn.

What's going on with Germany's new battery storage projects?

(Credit: Monika from Pixabay) French firm TotalEnergies has taken investment decisions on six new battery storage projects in Germany, with nearly €160m earmarked for their development. The projects will be developed by Kyon Energy, a subsidiary acquired in 2024. Once operational, the six facilities will have a combined storage capacity of 221MW.

Why does totalenergies invest in batteries?

Batteries also help to maximize the value of TotalEnergies' portfolio, especially through its trading activities, the company said. TotalEnergies leverages the expertise of its Saft affiliate for the supply of the best battery storage systems for its needs.

Why did totalenergies invest €160 million in Germany?

TotalEnergies made an investment decision to add six battery storage projects with a total of 221 MW of new storage capacity and an investment outlay of €160 million in Germany. TotalEnergies made its announcement on the occasion of Patrick Pouyanné's participation in the Europe 2025 conference held in Berlin.
